 "OPERATOR" in any
 emergency and say
 for example
 "I want to report a fire
 at —" or "I want the
 police at —."
 If you cannot stay
 at the telephone,
 tell the "OPERATOR"
 the exact location
 where help is needed.

warning:

Kentucky Law makes it a punishable misdemeanor wilfully to refuse to yield the use of a telephone party line to another person to enable such other person to report a fire or summon police, medical or other aid in case of emergency. The law also makes it a punishable misdemeanor to request the use of a party line on the pretext that an emergency exists, when the person requesting such use knows that no emergency exists. An emergency is defined as "a situation in which property or human life is in jeopardy and the prompt summoning of aid is essential."

warning:

Kentucky Law makes it a punishable misdemeanor for any person to make use of telephone facilities or equipment for the purpose of communicating language, suggestions, or proposals which are obscene, profane, lewd, lascivious or indecent in a manner reasonably to be expected to annoy, abuse, harass, torment, or embarrass another.

area codes speed
your long distance calls

The U.S. and Canada are divided into more than 120 telephone areas. Each area has a 3 figure area code. Your area code is 502 (see map). The area code of the telephone you are calling should be dialed, or given to the operator if it is different from the area code of the telephone you are using. It should not be used if it is the same. (When placing call with operator, say, for example, "I want Area Code 312-555-2364.") — When you give someone your telephone number, include your area code if needed to return your call. — A list of selected area codes is on pages 10 & 11.

INTERNATIONAL DIRECT DISTANCE DIALING

International Direct Distance Dialing—Puts the world at your fingertips. Many customers in Calhoun, Island, Livermore, and Sacramento can dial calls direct to the following countries:

| COUNTRY | CODE | COUNTRY | CODE | COUNTRY | CODE |
|----------------------------|------|----------------------|------|----------------------|------|

International Direct Distance Dialing (IDDD) is the fastest, easiest, most direct way to reach these countries. If your phone number begins with 273, 278, 486 or 736 your phone is equipped for IDDD. Here's how easy it is to place a call.

Station-to-Station Calls

DIAL

- the international access code (011)
- the country code (the two or three-digit numbers above)
- the city routing code (a one to four-digit number)
- the local telephone number (a two to nine-digit number)

For example, to place a typical station-to-station call to telephone number 123456 in Sydney, Australia, you would dial:
011 (international access code) + 61 (country code)
+ 2 (city routing code) + 123456 (local number)

Operator-Assisted Calls

For person-to-person, collect, credit card and all other operator-assisted calls, dial:

- 01
- the country code
- the city routing code
- the local telephone number

An operator will answer to help complete your call.

For example, to place a person-to-person call to telephone number 123456 in Sydney, Australia, you would dial:

01 (operator-assisted international access code) + 61 (country code) + 2 (city routing code) + 123456 (local number). An operator would then answer to help you complete the person-to-person call.

Please allow at least 45 seconds for all foreign calls to go through.

For a folder with complete IDDD instructions including city routing codes, please call your telephone business office.

(If your exchange is not listed above, or if you want to call countries not listed above, dial "0" and give the name of the country you wish to call.)

The operator can also give you rates to these locations.

Holidays—On Christmas Day, New Year's Day, July 4th, Thanksgiving Day, Labor Day and on resulting legal holidays when Christmas, New Year's or July 4th legal holidays fall on dates other than December 25, January 1, or July 4th, the holiday rate applicable is the Evening rate, unless a lower rate would normally apply.

types of calls:**station-to-station**

Call station-to-station if you wish to talk with anyone who answers. Rates are lower than person-to-person. Charging begins when the called telephone answers.

person-to-person

Call person-to-person when you wish to talk to a particular person or extension phone. Tell the "OPERATOR" you wish to make a "person-to-person" call. Rates are higher than station-to-station and also apply when you talk to an alternate person or extension. Charging starts when conversation begins.

coin calls

From coin phones, see the instruction card on or near the phone, or dial "OPERATOR."

conference

You can talk with several people in different places at the same time. Tell the "OPERATOR" you wish to make a "conference" call.

collect

You can call "collect" if the person or firm you are calling agrees to pay the charge. If you want to make a "collect" call, please be sure to tell the "OPERATOR" when you place the call.

telecommunication services for the deaf

South Central Bell provides operator assistance to its customers who use telecommunications devices for the deaf (TDD/TTY). Any TDD/TTY user making credit card, collect, directory assistance or other operator-assisted calls should call toll free, 1-800-855-1155. This number may also be used for after-hours repair service.

mobile calls—Air-Land-Marine

You can make long distance calls to automobiles, trucks, aircraft, boats and ships. Ask the "Operator" for the Mobile, Marine, or High Seas Operator. For information on other Communications Common Carriers, consult the Yellow Pages under PAGING & SIGNALING and RADIOTELEPHONE COMMUNICATIONS headings.

wide area telecommunications service (inward WATS)

Station-to-station long distance calls may be made, without charge to you, to those customers who have wide area telecommunications service. They offer this service to their customers calling from specific locations. Dial "1", plus Area Code "800" plus the special numbers of customers having this service.

credit card

Customers who have Bell System Credit Cards, may place calls and charge them to their credit card numbers. These calls require "OPERATOR" assistance to record the credit card number and may be station-to-station or person-to-person. Customers may apply for a credit card by calling their local Business Office.

bill to third number

Customers may place calls and transfer the charge to another telephone. This service requires "OPERATOR" assistance to record the number to be billed. The call may be either station-to-station or person-to-person.

time and charges

Customers, when placing calls, may request from the "OPERATOR" the amount of time and the charge for the call. This service requires "OPERATOR" assistance. The call may be either station-to-station or person-to-person.

LONG DISTANCE RATES TO OTHER STATES
EXCEPT ALASKA AND HAWAII**LOWEST RATES
DIAL-DIRECT ONE-MINUTE RATES**

Dial-direct calls are those interstate calls (excluding Alaska and Hawaii) completed from a residence or business phone without operator assistance.

Dial-direct rates also apply on calls placed with an operator from a residence or business phone where dial-direct facilities are not available.

On dial-direct calls, you pay only for the minutes you talk. The initial rate period is one minute any time of day or night.

Additional savings apply if you dial direct during the "discount" time periods indicated on the chart below:

| 8 A.M. | MONDAY-FRIDAY | SATURDAY SUNDAY |

**SPECIAL RATES
ON
CERTAIN HOLIDAYS**New Year's Day/July 4th/Labor Day/Thanksgiving/Christmas Day
On these legal holidays, the evening rate applies all day on dial-direct calls unless a lower rate would normally apply (nights & weekends). On operator-assisted calls, the dial-direct discount rate applies only on additional minutes. (Holiday rates do not apply to international direct distance dialed calls.)

Federal Excise Tax and any applicable state and local taxes are not included in the above rates. Discount rates illustrated are rounded. Charges are based upon rates in effect at the time of connection at the calling point including calls beginning in one rate period and ending in another. Rate periods and rates are subject to change by the company with commission approval.

CALLS OUTSIDE CONTINENTAL U.S. (INCLUDING ALASKA AND HAWAII)

There are different dial-direct rates (based on the time of day you place the call) that apply on calls to Alaska, Hawaii, Puerto Rico, U.S. Virgin Islands, Canada and the Bahamas.

Other locations capable of being dialed direct are parts of Mexico, including Mexico City.

For calls to all other points outside the continental U.S., dial "0" and ask the operator to place your call. The operator can also give you rates for calls to these locations.

TELEPHONE TIPS—MONEYSAVING AND MORE

Bad Connection.

If you get a poor connection or are cut off on a Long Distance call, both parties should hang up. Whoever placed the call should dial the operator and describe the bad connection. The operator will reestablish the call and adjust the charge so you aren't billed for the interrupted time.

Call during bargain times and save from 35% to 60%.

Rates on interstate One-Plus calls you dial direct are lower during evening, night, and weekend hours. You can save from 35% to 60% by dialing during these low rate periods. Refer to the rate charts for out of state calls on a preceding page in this Call Guide Section.

Coin phone refunds.

If one of our coin phones collects your money and doesn't complete your call, jot down the number and report it to us. Just dial "O" (operator) from another phone and we will mail you your refund and repair the phone that's out of order.

Dial it yourself and save.

You can save money by dialing your calls direct without involving an operator. We offer lower rates on One-Plus calls you dial direct to anywhere in the continental United States. Just dial 1 Plus the Area Code if different from your own Plus the Distant Number. If the operator asks for your number, give the one from which you are calling.

Don't pay for wrong numbers.

If you reach a wrong number when dialing long distance, we don't want you to pay for the call. Let the operator know right away so that you won't be charged for it. If you call from a coin phone, we'll mail you a refund.

Emergency numbers.

You'll find a place for listing emergency numbers for Police, Fire, Ambulance, and others on the inside front cover of this phone book. If you can't find the number in an emergency, dial "O" (operator) for assistance.

Handicapped?

If you have a problem using the telephone or know of someone who does, call your local Telephone Business Office and ask about our special services and equipment for the handicapped. We offer a variety of special services for those with hearing, sight, speech, or motion impairments.

If you use the operator, long distance calls cost more.

Collect, credit card, hotel-guest, and coin phone calls require the services of an operator. So do requests for time and charges and calls charged to another number. These "operator-assisted" calls cost more than One-Plus calls you dial direct from a regular home or business telephone.

Let it ring.

When you make a call, local or long distance, give your party time to answer—at least 10 rings—before you hang up. This could save you having to make a second call later.

Moving day special.

If you have residence service and are planning a move, you may save money by having your main phone and all extensions put in at the same time. This saves our installer an extra trip and saves you a charge for an extra installer visit.

Person-to-person calls cost the most.

A person-to-person call is the most expensive kind of long distance call. Call person-to-person only when you wish to speak to a particular person or extension phone.

Plan your conversation.

Whether it's business or personal, jot down the things you want to talk about, the questions you want to ask. You'll save calling time—and you won't forget something you wanted to say.

Schedule your calls.

If you call someone frequently, try to arrange a special time when he or she will be there to take your call. That way you can dial direct the One-Plus way and save!

Take advantage of holiday rates.

Our 35% discount evening rates apply on interstate One-Plus calls you dial direct on these legal holidays: New Year's Day, Independence Day, Labor Day, Thanksgiving, and Christmas Day—and that's all day, not just evenings. If you're calling nights or weekends, you get the 60% discount on interstate One-Plus calls. Reduced rates also apply on intrastate calls on certain holidays. Refer to the rate charts on a preceding page in this Call Guide Section.

Take your phone book with you when you move.

It'll save you lots of time when you want to call back to friends or business associates you left behind—you'll already have their numbers and won't have to waste valuable time calling for Long Distance Directory Assistance.

Teach the children to dial "O" in emergencies.

Show your children how to use the phone in an emergency by teaching them how to dial "O" for the operator. Also, make sure they know their home phone number and encourage them to always call home if they're going to be late. Give them change to carry for emergency calls.

Use area codes.

Be sure to use the correct area code when dialing outside your own area code. You will avoid reaching a wrong number. Area codes for many cities are listed on preceding pages in this Call Guide Section.

Vacation rates.

If you are going away for one month or more, you may save money by temporarily suspending your home or business telephone service. Also, your calls may be referred to another number while you are gone. A one-time charge is made for the suspended service but the monthly rate for the service is lower than most regular rates.

general information

**annoyance calls**

The Telephone Company is concerned about obscene and harassing calls and is trying to help stop them. You don't have to talk or listen to such calls—just hang up. If the calls persist, call your Service Representative at the Telephone Company Business Office. If a threat is made at any time, also call the police.

Malicious, threatening and abusive calls, including those in which obscene or profane language is used, are prohibited. The making of such calls over the Company's lines may constitute cause for disconnecting service and possible criminal prosecution, and civil action by the person called.

automatic answering set

Certain telephones are equipped with an automatic device, known as an automatic answering set, which answers the telephone mechanically. It then makes a recorded announcement. If your call is answered by an automatic answering set, listen carefully for the announcement which will be self-explanatory. Some sets will also record a message from the caller.

customer-provided equipment

Under the Federal Communications Commission's Registration Program, you may supply your own telephone or other terminal equipment and connect it directly to the nationwide telephone network if the equipment and method of connection are in compliance with the requirements of the Registration Program.

If you choose to provide your own equipment covered by the Registration Program, however, you are responsible for its proper connection, maintenance, and repair. FCC rules also require that you notify the telephone company before connecting your equipment.

The Registration Program does not apply to coin phone service and party lines.

obtaining telephone service by fraudulent means

For your protection, new equipment and procedures enable the Telephone Company to detect and investigate fraudulent calls. State law provides that no person shall defraud or attempt to defraud the Telephone Company of its lawful charges. Violators, upon conviction, are subject to imprisonment for up to 5 years or to a fine of up to \$3,000 or both.

out-of-town directories

Directories for other cities may be obtained by dialing operator and asking for the Business Office.

tariffs

Tariffs filed with and/or approved by the Regulatory Commissions setting forth the rates, rules and regulations for telephone service and facilities are available in our Business Office for public inspection.

your telephone number is important

When your telephone number is preceded by your area code it is the only one like it in the United States or Canada. When leaving your telephone number for someone else to call you, be sure to include the Area Code if the caller will be calling from a different telephone area than your own (see pages 10 & 11).

Numbers are most easily understood if they are given to others as "area code 3 1 1 (pause) 5 5 5 (pause) 3 6 3 1." When writing your telephone number, separate it like this area code (311) 555-3631.

If you're in a business it's smart to make it easy for your customers to reach you. Why not include your telephone number on your stationery, statements and all advertising pieces? Show your area code too—it helps distant parties call you faster.

unlawful wiretapping

It is a crime under federal law for any person, including a telephone subscriber, to wiretap or otherwise intercept a telephone call, unless that person has first obtained the consent of one of the parties actually participating in the call. Properly authorized law enforcement officers can engage in interceptions without the consent of either party when proceeding under court orders issued pursuant to applicable provisions of federal law.

Under federal law, the penalty for illegal wiretapping can be imprisonment for five (5) years, a \$10,000 fine, or both. Under Kentucky law, the penalty is imprisonment for not less than one (1) year nor more than five (5) years, a fine not to exceed \$10,000 but not both.

when you hear a "beep" tone

If your conversation is being recorded for business or other reasons you will hear a beep/tone every 15 seconds. Use of a recorder without a recorder-connector containing a beep-tone warning device is not permitted.

conducted tours

We enjoy playing host to groups on conducted tours of our buildings. If you would like to tour our facilities, we'll do our best to make the arrangements.

illustrated talks

Telephone speakers can be booked for all kinds of meetings. Talks include information on many new exciting developments in the world of communications and other timely subjects.

films

Many entertaining and informative films on a variety of subjects ranging from science and safety to people and places are available free of charge.

For information on tours, talks and films, just contact the Resources For Educators.

Get a short distance telephone.

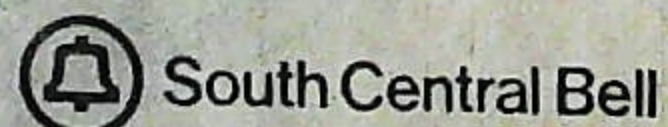

A handy extension will save you all kinds of time and trouble. If your phone always seems to ring somewhere you're not—call the telephone business office. Order an extension or two. Cost only pennies a day.* And think what it saves you.

**Plus nominal installation charges.*

Coin Telephones...
YOUR PHONE AWAY FROM HOME.

Public service programs are just a phone call away to our business office.

Films

We have a free loan service from a large collection of film subjects varying from science and safety to people and places. For example, Academy Award winner Lee Marvin narrates a review of achievement in the face of overwhelming odds in the film, "It Couldn't Be Done."

If you have a class or group that would be interested, call our business office as far in advance as possible. Then all you'll need is a 16mm sound projector and an audience.

Tours

A guided tour through a South Central Bell telephone building will give you a better understanding of how our communications system works and how complex equipment sends messages around the corner, across the nation, or throughout the world.

Talks

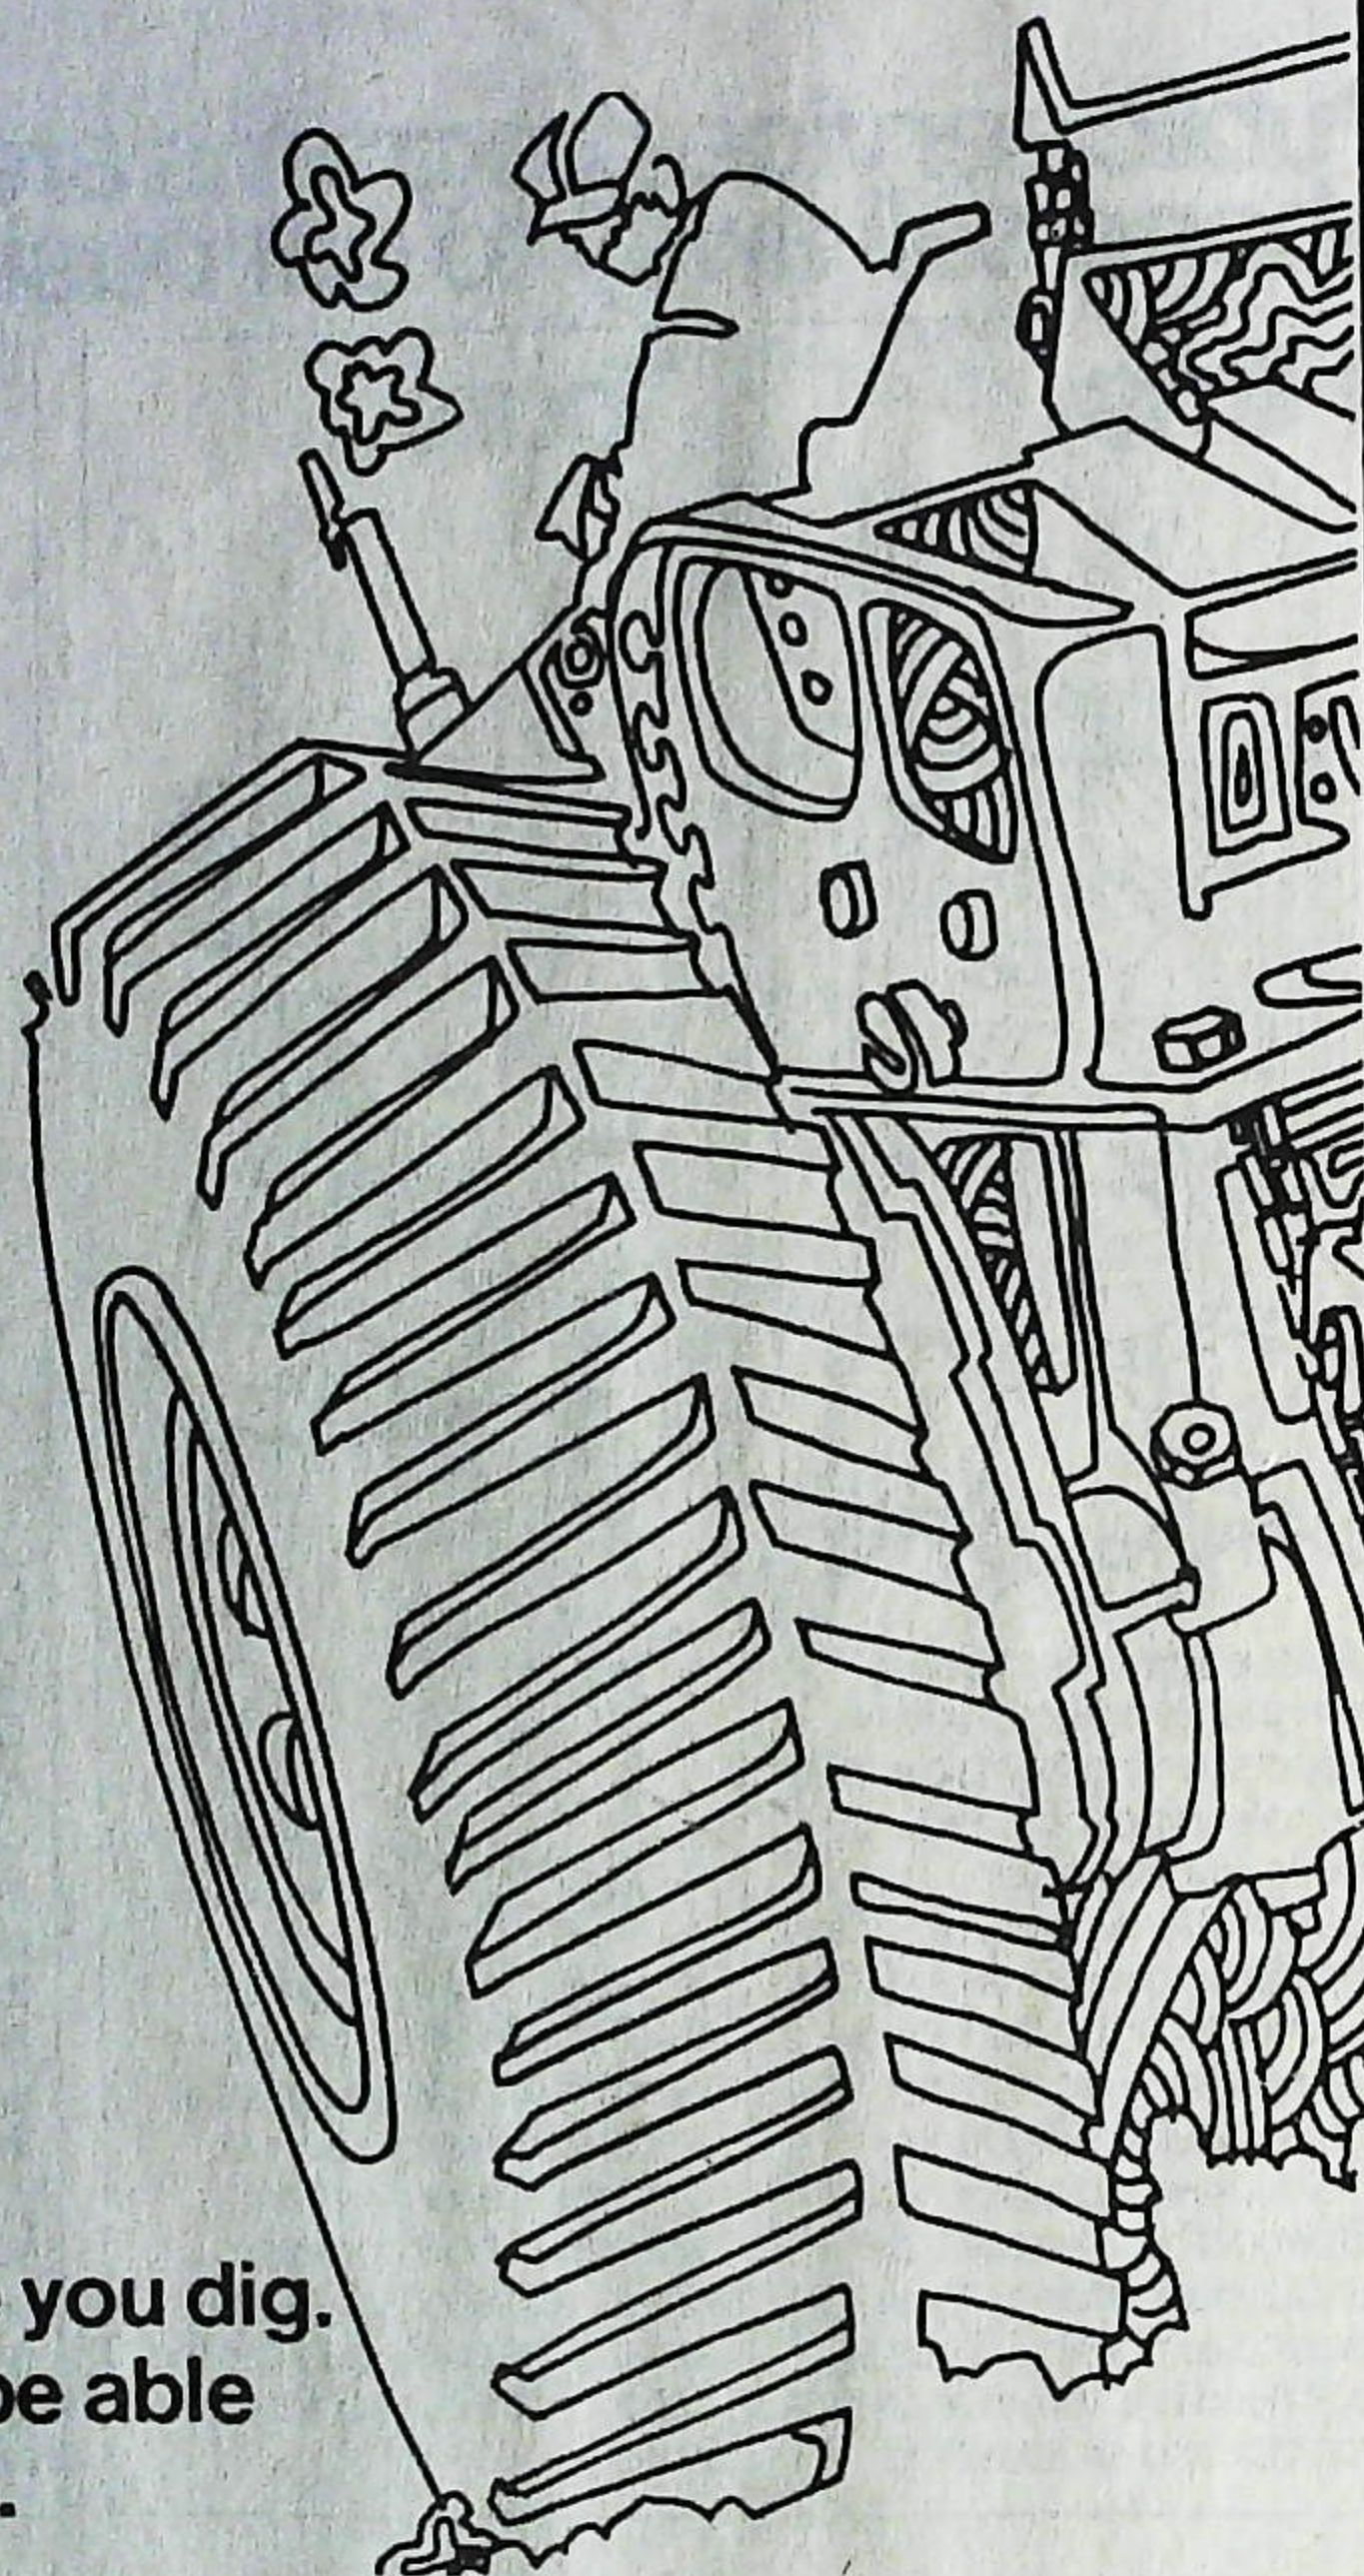

Talk is always cheap at South Central Bell. For just a phone call to our business office you can have a live presentation on the telephone and other communication subjects including "Is Your Voice Really You" which offers professional tips on voice improvement.

Just notify us in advance so we can put together a program that best suits your group or class. Remember, there's no charge for this service.

South Central Bell programs are available without charge to clubs, churches, schools, and other groups. To make arrangements for these free programs call the telephone business office.

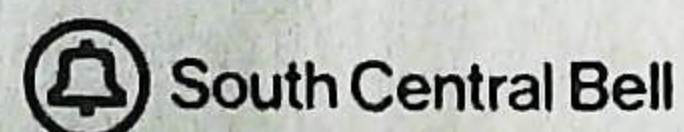

South Central Bell

**Call us before you dig.
You may not be able
to afterwards.**

One slashed telephone cable can disrupt service for thousands—including you. So before you dig, call Telephone Repair Service. We'll come out and show you where the cables are.

How to be a Better Buyer.

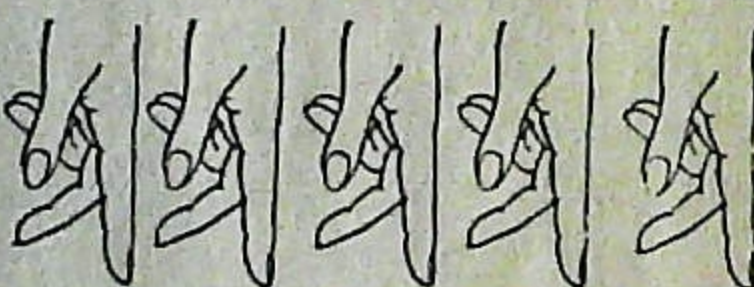

Millions of people "Let Their Fingers Do The Walking" and shop the Yellow Pages. They find the Yellow Pages an easy, convenient source of telephone numbers and buying information.

As publishers of the Yellow Pages, we want you to be satisfied with our "Buyer's Guide" and to use it frequently. And we know that the best way to do this is to keep your confidence in our directories. We are proud of our record. Misleading or unethical advertising is not condoned. When it is discovered, it is quickly removed.

For the best values in all your buying, remember these good shopping tips:

| | |
|-------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Price | Service provided after a sale may affect the selling price. Ask if the selling price includes delivery, installation and service charges. Also ask about returns and refunds, or replacements. |
| Estimates and Receipts | On major purchases, obtain estimates from more than one company. Receipts should be obtained for all payments. Get a receipt for appliances taken from your home or left for repair. |
| Service and Repair | Check the cost of service calls. Ask for an estimate of the total cost of repair, then get an itemized bill before paying. |
| Contracts and Credit Details | Read all contracts . . . before you sign them. Learn the interest rate, the amount and interval of payments. Be sure to get a copy of everything you sign. |
| Guarantees | All guarantees and warranties should be in writing. Find out who is responsible for carrying out the terms of the guarantee. If there is a registration card, be sure to send it in. |

To find things quickly, easily in these Yellow Pages

| | |
|-------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| For a Product or Service | Yellow Pages Headings are listed alphabetically. Just flip the pages and you'll find names, addresses and phone numbers of business people ready to serve you. |
| Forgotten the Name? Remember Only the Address? | Turn to the Heading best describing the firm's type of business. A glance down the list may help you remember that name. Or discover the address that'll give you both name and phone number. |
| For a Particular Brand | First, turn to the Heading best describing the product or service you want. Then look for the Trademark or Tradename you want. |
| To Save Trips. Or for Quick Emergency Service. | Calling ahead lets you know if they have what you want. And many firms listed offer delivery, pick-up, personal shoppers, mail, parcel post or express service. You can also find all sorts of emergency Headings from Physicians to Electricians. |

TRAVEL THE YELLOW PAGES ROAD.

going places?

A great starting point is the Yellow Pages. Let your fingers do the walking.

The call of love. It's a special thing for you. A moment of contact with the far away one you love. When you're sitting wondering how they are, do the loving thing. Make a loving phone call.

If you're cut off during a Long Distance call or have a poor connection, both parties should hang up. Then the party who originated the call should notify the operator who will reestablish the call and adjust the charge.

Check your phones now and then to make sure the receivers are firmly in place. Sometimes phones are reported out of order and the only trouble is an extension phone off the hook. So, hang it up and don't miss any calls.

**Almost
Everybody uses
the Yellow Pages**

Adults in the United States:*

- 4 out of 5 adults used the Yellow Pages to locate a product or service. That's more than 112 million people.
- 81% of the adult population used the Yellow Pages.
- They averaged 34 uses per person.
- That's a total of more than 3.9 billion references.
- 84% of the references were followed by action – a visit, a phone call, a letter.
- 43% of the references were to the Yellow Pages instead of the white pages, even though the name was known.
- 50% of the references were made without the name in mind.
- During a 12-month period, based on a study by Chilton Research Services in which 5000 adults, 20 years of age and older, were interviewed.

**Buyers of Industrial
Products and Services: ****

- Of about 500,000 buyers in the industrial market, 8 out of 10 (over 400,000) used the Yellow Pages 67 times each (over 28,000,000 references).
- 9 out of 10 references were followed by action – a phone call, a visit, or a letter.
- 23% of the references were made by buyers who chose to use the Yellow Pages instead of the white pages, even though the name was known.
- 77% of the references were made without the firm name in mind.
- During a 12-month period, based on an independent study by Audits & Surveys Co., New York. This update of the first industrial survey includes 2,729 personal interviews of buyers in 1,825 manufacturing plants.
